

Name : BARAKAT
First name : Abdelhamid
Adress : Institut Pasteur du Maroc
1. Place louis Pasteur
20100 Casablanca Morocco
Email : hamid.barakat@pasteur.ma

DOCTOR IN MOLECULAR AND CELLULAR BIOLOGY

Groupe Leader :
Human Molecular Genetic

Professional Experiences

- **Researcher:** Pasteur Institute Of Morocco since 1995
- **Post-doc:** Gustave Roussy Institute Paris, France 1997-1999

TRAINING

- 1989** D.E.A. de Biologie-Santé, Option Biotechnologie
Université des sciences et techniques du
Languedoc Montpellier II
- 1994** Doctorat de l'Université. Université des Sciences
et Techniques du Languedoc Montpellier II

Publications

Picard A, Barakat A, Cavadore J. C , DoréeM.

Fission yeast p13suc1 microinjection inhibits MPF activation and triggers MPF inactivation in starfish oocytes. (1990).

Advances in vertebrate reproduction 5:69-74.

A. Chatonnet; T. Lorca; A. Barakat; E. Aron; and O. Jbilo.

Structure of rabbit butyrylcholinesterase gene deduced from genomic clones and from cDNA with intron (1991).

Cellular and molecular neurobiology 11:119-130.

A. Picard; J. C. Labbe; A. Barakat; J. C. Cavadore and M. Dorée.

Okadaic acid mimics a nuclear component required for cyclin B-cdc2 kinase microinjection drive starfish oocytes into M phase. (1991).

Journal of cell biology 115: 337-344.

S. Gallas; A. Barakat; M. Dorée and A. Picard.

A nuclear factor required for specific translation of cyclin B may control the timing of first meiotic cleavage in starfish oocytes (1993).

Molecular biology of the cell 4: 1295-1306.

A. Barakat; A. M. Genevière-Guarrigues; P. Shatt and A. Picard.

Subcellular distribution of aster-nucleated microtubule length: a more or less mitotic status of cytoplasmic areas during meiosis I of starfish oocytes (1994).

Biologie of the cell 81: 81-92.

A.M. Genevière-Guarrigues., A. Barakat., M. Dorée., J. L. Moreau., and A. Picard. Active cyclin B-cdc2 kinase does not inhibit DNA replication and cannot drive prematurely fertilised eggs into mitosis. (1995). **Journal of Cell Science** 108. 2693-2703.

Characterisation of a new BLM mutation associated with a topoisomerase II α defect in a patient with Bloom syndrome. (1997). F Foucault; C Vaury; A Barakat; D Thibout; P Planchon; C Jaulin; F Praz and M Amor-Gueret.

Hum. Mol Genet 6 : 1427-1434.

Moreau JL., Marques F., Barakat A., Schatt P., Lozano JL., Peaucellier G., Picard A., Genevriere AM. Cdk2 activity is dispensable for the onset of DNA replication during the first mitotic cycles of the sea urchin early embryo. (1998). **Dev Biol.** Aug 15; 200(2):182-97.

Barakat, A., M. Ababou, R. Onclercq, S. Dutertre, E. Chadli, N. Hda, A. Benslimane and M. Amor-Gu eret. Identification of a novel BLM missense mutation(T2706C) in a moroccan patient with Bloom's syndrome.(2000). **Human mutation** 15, 584-585.

Y-Chromosome Analysis in Egypt Suggests a Genetic Regional Continuity in Northeastern Africa (2002). Manni F., Leonardi P., Barakat A., Rouba H., Heyer E., Klintschar M., McElreavey K And Quintana-Murci L. **Human Biology, October 2002, v. 74, no. 5, pp. 645–658.**

Y-chromosomal STR haplotypes in Berber and Arabic-speaking populations from Morocco (2004). Quintana-Murci L, Biggam A, Rouba H, Barakat A, McElreavey K, Hammer M. **Forensic.Sci.Int. Fev 10;140(1); 113-5**

Homozygous deletion related to Alu repeats in RLBP1 causes retinitis punctata albescens (2006).Humbert G, Delettre C, S en echal A, Bazalgette C, Bazalgette Ch, **Barakat A**, Arnaud B, Lenaers G, Hamel CP. **Invest Ophthalmol Vis Sci.: 2006 Nov; 47 (11):4719-24**

Novel mutations involving the INSL3 gene associated with cryptorchidism (2007).El Houate B, Rouba H, Sibai H, **Barakat A**, Chafik A, Chadly El B, Imken L, Bogatcheva NV, Feng S, AgoulniK Aiand McElreavey K. **J Urol. 2007. Mai, 177 (5):1947-51**

GJB2 (Connexin 26) gene mutations in Moroccan patients with Prelingual Nonsyndromic Hearing Impairment and carrier frequency of the common GJB2-35delG mutation (2007). Abidi O, Boulouiz R, Nahili H, Ridal M, Alami M N, Tlili A, Rouba H, Masmoudi S, Chafik A, Hassar M, Barakat A.
International Journal of Pediatric Otorhinolaryngology. 2007 Aug;71(8):1239-45

AZF microdeletions and partial deletions of AZFc region on the Y chromosome in Moroccan men (2007). Imken L, El Houate B, Chafik A, Nahili H, Boulouiz R, Abidi R, Chadl E, Louanjli N, Elfath A, McElreavey K, Hassar M, Barakat A and Rouba H.
Asian J Androl. 2007 Sep;9(5):674-8.

Redouane Boulouiz, Yun Li, Omar Abidi, Hanno Bolz, Abdelaziz Chafik, Christian Kubisch, Hassan Rouba, Bernd Wollnik, Abdelhamid Barakat.
Analysis of MYO7A in a Moroccan family with Usher syndrome type 1B: novel loss-of-function mutation and non-pathogenicity of p.Y1719C.
Mol Vis. 2007 Oct 2;13:1862-5.

Amor-Gu eret M, Dubois-d'Enghien C, Laug e A, Onclercq-Delic R, Barakat A, Chadli E, Bousfiha AA, Benjelloun M, Flori E, Doray B, Laugel V, Louren o MT, Gon alves R, Sousa S, Couturier J, & Stoppa-Lyonnet D.
Three new BLM gene mutations associated with Bloom syndrome

Genet Test. 2008 Jun;12(2):257-61.

Brahim.El Houate, Hassan.Rouba, Laila.Imken, Hicham.Sibai, Abdelaziz.Chafik, Redouane. Boulouiz, Elbakkay.Chadli, Mohmmmed.Hassar, Ken.McElreavey, Abdelhamid.Barakat.
No association between T222P/LGR8 mutation and cryptorchidism in Moroccan population
Hormone research, 2008;70(4):236-9

Halima Nahili, Redouane Boulouiz , Omar Abidi , Leila Imken , Rouba hassan, Abdelaziz Chafik , Mohammed Hassar , Abdelhamid Barakat
Absence of the GJB3 and GJB6 mutation in Moroccan patients with autosomal recessive non syndromic deafness.
International Journal of Pediatric Otorhinolaryngology, 2008 Nov;72(11):1633-6
